Webinar Recording Notice [•REC]

This webinar **will be recorded**.

The recording may be used for:

- Internal documentation
- Sharing with registered participants
- Dissemination activities.

By joining, you consent to the recording. If you prefer not to appear, you may:

- Keep your camera off

Post your questions in the **chat**/ Allocated time for Q&A sessions

Agenda of the Webinar

Part A – Work Strand 1

- Introduction to LDT4SSC project
- Introduction to Work Strand 1
- Funding Structure and Financial Support Mechanisms
- Application Process and Timeline
- Eligibility Criteria
- Technical and Non-Technical Requirements

Part B – Support to Applicants

- Introduction to the Matchmaking Platform
- Introduction to the Helpdesk
- Q&A Session

Funded by
the European Union

Introduction to LDT4SSC

LDT4SSC

General information

Local Digital Twins for Smart and Sustainable Communities

Call: DIGITAL-2024-CLOUD-DATA-AI-07-DIGITALTWIN:
Towards networked Local Digital Twins in the EU

Type: DIGITAL-GFS DIGITAL Grants for Financial Support

Objective: “to consolidate existing results and move towards an ecosystem of mature LDT-based infrastructures and services across the EU to help cities and communities achieve economies of scale to access and deploy data platform and LDT-based services.”

Budget: 20M€ * 3M€ /17M€ (funding for pilots, 50% co-funding required = 34M€)

General objectives:

- Connecting data platforms and LDTs from cities and communities that already have a LDT in place, to create an EU “federation” of LDTs.
- Developing open-source pilots of LDT services based on shared needs of cities and communities that already have a local data platform and/or an LDT and want to expand them with new real-life use case services.
- Complementing the EU LDT Toolbox launched under WP2021-22 with additional complex AI-based and innovative services

LDT4SSC

The EU Smart Communities Ecosystem

LDT4SSC

3 work strands, with 5 calls for pilots

WS1: Technical Interconnection of Existing LDTs

Linking and scaling digital twins or data platforms that are already in place.

1 Open Call
(Nov/25)

WS2: Creation of LDTs Based on Common Needs

Addressing shared urban or regional challenges (e.g., cross-border traffic, air pollution).

2 Open Calls
(Feb/26)
(Jun/26)

WS3: Adding New Advanced AI-Based Tools to the LDTs Toolbox

Integrating AI-driven, value-added services to enhance existing LDTs.

2 Open Calls
(Feb/26)
(Jun/26)

Introducing Open Call 1

Interconnecting Local Digital Twins

Technopolis Group Belgium

Introducing Work Strand 1

Objectives

WS1: Technical Interconnection of Existing LDTs

Linking and scaling digital twins
that are already in place.

1 Open Call

**ENABLE CROSS-SECTOR AND
CROSS-BORDER SHARED DATA
SERVICE**

**EMPOWER COLLABORATION &
FAIR COMPETITION**

**BUILD A CONNECTED DIGITAL
TWIN ECOSYSTEM**

**INFORM AN LTD4SSC
INTEROPERABILITY BLUEPRINT**

**Funded by
the European Union**

Targets of Work Strand 1

Connecting LDTs from cities and communities that **already have an LDT in place**;

To create an **interoperable EU federation** of LDTs

To foster a **unified data ecosystem** that enhances decision-making particularly for key EU policies and reduces redundancies;

To **connect public authorities** that are **willing to share data**, models and services with other data platforms;

To support **seamless data exchange and integration**, both within individual communities and across regional networks;

To foster the **development of skills among all pilot members** including companies offering technical solutions for a better interconnection, a better maturity of components and documentations.

Funding Structure and Financial Support Mechanisms

- The total **EU funding available for the pilots amounts to €17 million** (85% of the total budget of the LDT4SSC project), to be distributed across approximately **15 to 20** selected consortia
- The funding will be distributed across three work strands:
 - **Work strand 1: At least 5.1 million (30%)**
 - **Work strand 2: At least 5.1 million (30%)**
 - **Work strand 3: At least 2.5 million (15%)**
- **Co-funding model:**
 - LDT4SSC covers up to **50% of eligible costs**
 - **Applicants** are required to **cover at least 50% of total pilot costs**

Funding Structure and Financial Support Mechanisms

- **Grant rules:**

- The **maximum grant** awarded per third-party is **€500,000 across pilots**
- The **maximum cumulative grant per consortium** is **€1,000,000**
- Eligible direct costs comprise **Personnel, Subcontracting, and Purchase Costs**, while **indirect costs** are eligible at a flat rate of **7% of total direct costs**.
- All eligible costs must be **actual, incurred during the pilot period**, and in full compliance with applicable regulations, including state aid rules and the prevention of double funding

More information are available on the Call for Pilots Manual, which can be found on the LDT4SSC website.

Application Process and Timeline

Who can Apply?

Participation is open to, but not limited to:

**LOCAL, REGIONAL AND
NATIONAL PUBLIC
ADMINISTRATIONS,
EUROPEAN DIGITAL
INFRASTRUCTURE
CONSORTIA (EDICs)**

**NGOS, NON-PROFITS, AND
CIVIL SOCIETY
ORGANISATIONS**

**RESEARCH INSTITUTIONS
AND ACADEMIA**

**BUSINESSES, TECH
DEVELOPERS, AND
SUPPLIERS**

**Funded by
the European Union**

Application Process

Consortium Requirements

Each pilot consortium must comprise **at least two local or regional authorities** drawn **from two different eligible countries** and **at least one additional partner** drawn from one of the following categories:

- Private entity (e.g., service provider)
- Private association (with legal status)
- Trusted third party
- Private representative of a use-case sector

Eligible Countries:

- EU Countries (including outermost Regions and Overseas Territories)
- Norway, Iceland, Liechtenstein
- [DEP Associated countries](#)

All participants, with the exception of public bodies, must complete an **Ownership Control Declaration (OCD)**.

Funded by
the European Union

DEP-eligible countries

Technical and Non-Technical Requirements

Marine LE GALL & Laura RIOU (Cerema)

Requirements & recommendations

Rationale for the requirements

 **Purpose:** The requirements translate the LDT4SSC's objectives and its technical and non-technical frameworks into clear expectations for pilots. They exist so that funded pilots deliver interoperable, replicable, and sustainable results that can integrate into the wider EU LDT ecosystem.

 **They matter because:** Meeting these requirements:

- Ensures eligibility and
- Raises chances of selection.

 **Connection to outcomes:** Requirements link directly to the Applications' Evaluation Criteria (Excellence, Impact, Quality & Efficiency of Implementation) used by the Evaluation Committee.

Requirements & recommendations

Where to find the WS1 Requirements

- 👉 **Primary source:** Chapter [2.8. Description of requirements & recommendations](#) in the **Call for Pilots Manual for Work Strand 1** (Connecting Existing Local Digital Twins).
- 👉 **Secondary source:** A cheatsheet is available on the [WS1 Piloting Activities – Technical Inter-connection of Existing LDTs](#) page of the project's Knowledge Hub.

Requirements & recommendations

Thematic areas on the 24 Requirements and 8 recommendations across 4 dimensions

Pilot Details

- **Digital maturity;**
- Cross-sectoral **use cases** with shared data and services;
- **Technical and functional architectures** description;
- Current and target **data governance**;
- **Project management and staffing**;
- **AI/XR** use.

Relevance

- Align with **local and EU priorities**;
- **Political endorsement**;
- **End-user engagement** and stakeholder involvement (**Quadruple Helix**);
- **Transferability and replication** across EU communities;
- **EU technology** stacks and infrastructure providers used.

Implementation

- Four-phase **Methodology** and **key activities**;
- **Technical interconnection** approach and draft technical and functional target architecture;
- Common **data descriptions** and **shared** data models, data, assets and services.
- Engagement with the **MIMs Plus**.

Impact

- **Interconnection rationale**;
- Tangible **benefits** and wider **socio-economic and environmental impacts**;
- **Contractual** framework;
- **Expected outputs** and **openness/accessibility** of results;
- **Scaling and post-pilot** continuation.

Requirements & recommendations

Technical and Non-Technical Eligibility criteria 1/2

Digital Maturity

- Each pilot must include at least **two public authorities operating “Digitally mature” LDTs** to be interconnected.
- These LDTs must **already provide digital and data services** within their respective cities or communities.

“Digitally mature” means having an existing LDT (can be supported by a Data Space) with at least descriptive-level capabilities and dynamic data integration.

Requirements & recommendations

Technical and Non-Technical Eligibility criteria 2/2

Use Cases

Pilots must include at least two cross-sectoral use cases, each featuring one shared service.

- The developed services integrate datasets from two or more sectors (e.g. mobility, energy...); or
- The LDTs provide services that span at least two sectors within a single use case.

Funded by
the European Union

Requirements & recommendations

Highlighting a selection of requirements

- 👉 **Rq. 8** Align the **use-cases** with the European Green Deal Objectives, the New European Bauhaus priorities, or tackle key challenges identified by LDT4SSC.
- 👉 **Rq.9** Actively engage **end-users** and must involve at least three of the four **Quadruple Helix** stakeholder groups.
- 👉 **Rq.14** Integrate the **SIMPL Data Space Governance Authority Agent**.
- 👉 **Rq.16** Map all data collected and shared within the pilot ecosystem to a **Linked Data Ontology**.
- 👉 **Rq.22** Include a **contractual framework** that guarantees the sustainability of LDT in all pilot activities.
- 👉 **Rq.23** Publish in open repositories under an **open licence** all created or adapted **data models**. Share through the **LDT Toolbox Marketplace** the **developed services**.

Requirements & recommendations

How to demonstrate compliance with these requirements

👉 **Upon application:** By filling out and submitting the [Application Form](#).

👉 **During the project:** By submitting Pilot Deliverable and Reports (See chapter [2.5.4. Reporting](#) in the Call for Pilots Manual for Work Strand 1).

▲ **Compliance with requirements conditions final payment.**

Nr.	PD Title
PD1	Data Management Plan & Ethics
PD2	Interoperability Self-assessment
PD3	Pilot Scope & Architecture
PD4	Governance Scheme
PD5	Communication, Dissemination, and Exploitation Report

1.6. Coordination and management
Please describe how the consortium will coordinate and manage the project, where applicable, the roles, and expertise of participating partners. Do participating partners intend to collaborate and work together. A detail of the profiles is expected to be described under Section 3.3 (max 250 characters/pilot member)

Relevant Rq: 6

1.7. Digital Maturity Level

Pilot Member	Capability ⁴
	For each pilot member operating an LDT to be provide a high-level description of the existing main capabilities . Specify which dynamic data currently integrated and what digital or data offered within the city or community. Where available public reference (e.g., URL link) to the platform accessible, provide representative screenshot of platform's front end. (max 1500 characters/pilot member)

Relevant Rq: 3

Pilot Member	For each pilot member operating an LDT to be interconnect a high-level description of the current architecture coverage and functional aspects . Provide a diagram for each aspect: main tools, standards, and software components used, and data lifecycle (from collection to use and sharing) (max 1500 characters/pilot member)
Pilot Member1	
Pilot Member 2	

Relevant Rq: 4

Eligibility Criteria

	Eligibility criterion	How it's demonstrated
General	All required documents and ownership and control declarations have been submitted in the right format (PDF & Excel) and on time. The application files are submitted in English.	Application Form, Financial Form, Letters of Commitment, Ethics and Data Protection Self-Assessment
	The proposal has been submitted using the Open Call template. This includes respecting the page limit for the proposal template.	Application Form, Financial Form, Letters of Commitment
	All questions have been answered (within the character limits).	Application Form, Pilot Budget, Ethics and Data Protection Self-Assessment
Legal	Pilot consortium consists of at least two local or regional public administrations from two different eligible countries, together with at least one additional partner drawn from one of the following categories: • Private entity (e.g., service provider) • Private association (legal status) • Trusted third party • Private representative of a use-case sector	Application Form, Letters of Commitment
Financial	Pilot consortium covers at least 50% of the pilot budget as co-financing.	Applicants demonstrate their capacity to provide at least 50% co-financing in an added budget table and with the Letters of Commitment
	Support requested is not higher than 1.000.000 euros per consortium.	Financial Form
	Support requested is not more than 500.000 euros per third-party across pilots.	Financial Form

Eligibility Criteria

Technical and Non-Technical	Pilots must include at least two cross-sectoral use cases, each featuring one shared service. • The developed services integrate datasets from two or more sectors (e.g. mobility, energy...); or • The LDTs provide data services that span at least two sectors within a single use case.	Application Form
	Each pilot must include at least two public authorities operating digitally mature LDTs to be interconnected. ‘Digitally mature’ means having an existing LDT (can also be supported by a data space) with at least descriptive-level capabilities (see explanation in Annex 2) and dynamic data integration. These platforms must already provide digital and data services within their respective cities or communities.	Application Form
Ethical	Ethics and Data Protection Self-Assessment completed and submitted.	Application Form, Ethics and Data Protection Self-Assessment

Introducing the Matchmaking Platform

Sara Sebastiano, European Network of Living Labs

Matchmaking Platform

Looking for partners for the LDT4SSC Open Call (WS1)?

Our **LDT4SSC Matchmaking Platform** is now live to help you build strong, diverse and complementary consortia!

On the platform, you can:

-  Present your organisation's expertise and assets
-  Find cities, regions, SMEs, research organisations, NGOs and tech providers
-  Identify partners with skills in: Data platforms & interoperability, Modelling, AI & geospatial tools, Governance, ethics & data governance, Domain expertise (mobility, energy, environment, resilience, public services)
-  Create or join consortium proposals for WS1: Interconnecting Local Digital Twins

Join the **Matchmaking Platform** and find your future partners:

<https://www.b2match.com/e/local-digital-twins-smart-communities>
